

Laguna

Care Relax \

Geriatric reclining armchair finished to an extremely high standard (a step up from the Echo in terms of comfort) offering excellent comfort. The recliner has an ergonomically shaped back, which makes it ideal for people who have to sit down for extended periods of time (elderly who are not mobile and need plenty of care). The Laguna has numerous adjustment/reclining options (which is a plus compared to the Echo). This means that fellow residents or nurses can help put the armchair in the desired position if the user is no longer capable of doing so.

What makes the Laguna Care Relax so unique? \

- \ \ Multiple reclining/adjustment mechanisms, also electrically adjustable
- \ \ Extremely comfortable thanks to the ergonomically shaped back
- \ \ Unique design
- \ \ Different side panels
- \ \ Comfortable sitting over long periods
- \ \ Optional removable headboard
- \ \ Maintenance-friendly removable seat

BACK, SEAT AND LEG REST

Back, seat and legrest (except for the VA and SC, which have no leg rest) are upholstered. Excellent seating comfort. Ergonomically shaped back consisting of a plywood shell and foam padding. The seat is made of plywood with webbing and HR foam. Standard: with removable seat. Optional: with integrated leg rest (but without a removable seat).

CE APPROVAL

The electrical version of the Laguna relax is CE-marked according to the machinery directive. This involves analysing all possible risks when using the product. These risks were then addressed during the development of the product. Moreover, all electrical components also have a CE declaration and are therefore safe to use. CE declaration approved by renowned inspection agency Vincotte.
