

Designed by Simon Pengelly, the VARYA collection is a truly transversal and functional family of chairs that easily crosses the boundary between public and domestic spaces. The VARYA family configures one of the largest and most complete ranges on the market. With an elegant and refined design, VARYA allows to furnish different types of spaces with the same family of seating, keeping always coherent project aesthetic. Different chairs, armchairs, stools and benches are generated by combining comfortable seats with an extense range of bases. The broad variety of combinations, together with the extensive range of available finishes, allow endless possibilities of customization without altering the unique character and timeless spirit of this original family designed for inhabiting the most diverse array of settings and contexts.
