

Buddy

Bedside table \

A mobile table that follows you closely. At least if you like. Buddy is very agile with its small wheels. A handy companion in your living room or bedroom, as a side table or bedside table.

Timeless design

Thanks to its bronze metal look, Buddy has a contemporary and modern appearance. If you opt for the Buddy, you can enjoy an extra wooden shelf, in addition to the metal storage compartment, a handy reading lamp and a USB port for charging your smartphone or tablet.

The automatic foot lights switch on easily when motion is detected in low light and provide discreet low lighting to move through a room in the dark safely.

Practical accessories

Buddy is so much more than a classic side table. With intelligence functions, it does its name justice and becomes your regular partner in bed or with your design lounge chair.

What makes the bedside table Buddy so unique? \

- \ \ Integrated reading lamp
- \ \ Foot light with automatic detection
- \ \ Solid beech shelf
- \ \ USB port

MODEL

BUDDY X

The Buddy X version features a reading lamp and automatic foot lighting. This version also features a solid beech top shelf. The Buddy X has a USB port on the sides of the top shelf.

BUDDY O

The Buddy O version features a top in solid beech and an ergonomic wooden push arm. There is no electrical connection.

AUTOMATIC FOOT LIGHTS

A floor-oriented light makes it easy to get up at night. The automatic foot lighting on the Buddy X is activated automatically in low light and motion detection by the built-in PIR sensor on the front of the foot panel.

The automatic foot lights turn off automatically after three minutes (or 1, 5 or 8 minutes on request).

The automatic foot lights can be switched off if desired using a switch on the back of the foot panel.

COLOUR

Both versions of the buddy have a bronze-coloured metal frame in RAL colour 1035 and also have a solid beech shelf.

Ral 1035

Solid beech
