

# Buddy

## Bedside table \

A mobile table that follows you closely. At least if you like. Buddy is very agile with its small wheels. A handy companion in your living room or bedroom, as a side table or bedside table.

## Timeless design

Thanks to its bronze metal look, Buddy has a contemporary and modern appearance. If you opt for the Buddy, you can enjoy an extra wooden shelf, in addition to the metal storage compartment, a handy reading lamp and a USB port for charging your smartphone or tablet.

The automatic foot lights switch on easily when motion is detected in low light and provide discreet low lighting to move through a room in the dark safely.

## Practical accessories

Buddy is so much more than a classic side table. With intelligence functions, it does its name justice and becomes your regular partner in bed or with your design lounge chair.

## What makes the bedside table Buddy so unique? \

- \ \ Integrated reading lamp
- \ \ Foot light with automatic detection
- \ \ Solid beech shelf
- \ \ USB port

## MODEL

### BUDDY X

The Buddy X version features a reading lamp and automatic foot lighting. This version also features a solid beech top shelf. The Buddy X has a USB port on the sides of the top shelf.

### BUDDY O

The Buddy O version features a top in solid beech and an ergonomic wooden push arm. There is no electrical connection.

## AUTOMATIC FOOT LIGHTS

A floor-oriented light makes it easy to get up at night. The automatic foot lighting on the Buddy X is activated automatically in low light and motion detection by the built-in PIR sensor on the front of the foot panel.

The automatic foot lights turn off automatically after three minutes (or 1, 5 or 8 minutes on request). The automatic foot lights can be switched off if desired using a switch on the back of the foot panel.

## COLOUR

Both versions of the buddy have a bronze-coloured metal frame in RAL colour 1035 and also have a solid beech shelf.

Ral 1035

Solid beech
