

Pause

Elegance meets comfort in Pause

Comfortable sitting in design furniture? Pause takes the art of relaxing to an unprecedented level. This sublimely designed one-seater combines a timeless cubist design with an all-in-one lounge chair. Discover this beautiful piece of craftsmanship.

Minimalist look

At Tuoi, we put design first, while ensuring ultimate sitting comfort. The sleek, timeless Pause conveniently responds to this need. You can easily convert this high-backed reclining chair into a trendy club chair or turn it into a lounge chair to relax in after a busy day.

Personalise your design lounge chair with fabric or (artificial) leather upholstery in any colour you like. However you compose it, with its elegant black cross-foot, Pause is sure to be the highlight of your living room.

Unique functionality

Tucked away accessories and discreet features make Pause what it is: the ideal lounge chair. An extra lumbar cushion for more support, heating to relax your tired back or literally an extra push in your back to stand up? Pause has it all.

With subtle touch-sensitive buttons, you can control this design furniture easily. Combine Pause with one- or two-seater Enjoy and your living room gets an instant upgrade.

ADJUSTMENT MECHANISMS

Pause relax features a discreet touch-button control system, fitted as standard on the inside of the seat on the right side sitting in the seat. The touch buttons allow continuous adjustment of the backrest [A] and leg support [B] individually.

Optionally, a stand-up function can be selected with separate controls on the inside of the seat on the left side sitting in the seat.

INTEGRATED HEATING

The Pause reclining chair can optionally be fitted with integrated heating [C]. To do this, fold open the back of the lounge chair and the integrated heating is located in the lower back. Use the remote control to turn the heating on or off and select the intensity. The heating switches itself off automatically after an hour and a half of operation. With integrated heating, the separate side pocket is always provided as standard.

LUMBAR CUSHION

Pause relax comes standard with a lumbar cushion in the same upholstery as the seat. Use this lumbar cushion with a folded back for extra ergonomic support.

TECHNICAL INFORMATION

FRAME	Seat and back in metal, side panels in chipboard
SUSPENSION	Nosag 3.8 mm tempered steel, non woven
SEAT	HR foam, density 37 kg/m ³ and 200 g filling
