

Stricta

Table \

Sleek and minimalist table for various applications, such as the living room or resident's room. Available with square or rectangular table top.

Top-end tables thanks to the excellent price/quality ratio, capability for repeated disassembly, and maximum free space between the legs. Ideal as a table for the bedroom or living area.

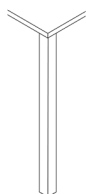

What makes the table Stricta so unique? \

- \ Excellent price/quality ratio
- \ Wheelchair accessible (minimum 72 cm floor clearance)
- \ Legs can optionally be fitted with adjustable feet
- \ Legs can be removed for repair or for reuse of the materials
- \ Easy on-site assembly to reduce transport volume

TAFELPOOT

STRICTA

Simple, elegant and modern table leg with 45x45 mm cross-section.

The Stricta leg has square corners, slightly rounded with a radius of 2 mm.

Leg in solid beech, stained and varnished (according to colour collection). Fitted with a fixed glide (white nylon) as standard. Optionally available with adjustable synthetic foot.

TABLETOP

Tabletop type Chipboard

Tabletop thickness 20 mm

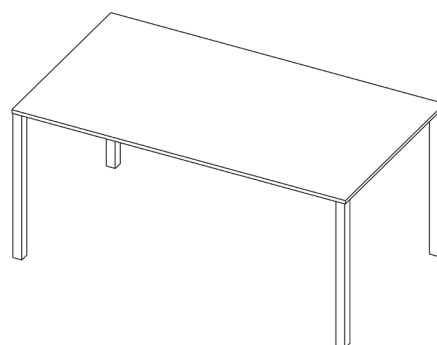

Tabletop structure HPL top surface. Chipboard core with white cover layer underneath. Matching edging in rounded ABS.

Corners Four square corners with 2 mm radius.

TABLE CONSTRUCTION

The four legs are attached to each corner by a gusset plate (epoxy-coated metal plate fixed recessed into the board). The legs are fixed to the table top by 2 bolts and nuts (Rampa). The legs are located just inside the edging strip to create maximum clearance between the legs.

On tables with a length of 140 cm or more, two horizontal metal reinforcement laths are fitted on the bottom of the table.

ASSEMBLY & DISASSEMBLY

The table consists of just two components: the table top and the leg with metal joint plate. The legs are attached to the table top with three bolts. This assembly method allows repeated disassembly of the table without loss of stability, so the table top or legs can easily be replaced on site.
